Tender specifications

X-BETON collection

Supply of Cotto d’Este porcelain stoneware tiles for walls and floors.

**Product characteristics**

Cotto d’Este body porcelain stoneware tiles, unglazed, composed of a very fine mixture of quality clay with the addition of feldspar, quartz and kaolin, manufactured by dry pressing of atomized powders and subsequently sintered by industrial firing at temperatures above 1200°C.

The complete vitrification of the tiles allows for a compact, non-absorbent, frost-proof product, resistant to bending, impacts, staining, chemical attack and thermal shock.

**Compliance with EN 14411-G / ISO 13006-G**

The X-Beton collection is in compliance with the regulations required for first quality products in Italy and Europe UNI EN 14411-G and internationally through ISO 13006-G.

**Quality and environmental certifications**

The conservation of the product characteristics is guaranteed by the Quality Management System put into practice by Cotto d’Este in its plants and certified in accordance with UNI EN ISO 9001.

The collection is manufactured in plants with UNI EN ISO 14001 certified Environmental Management Systems (internationally recognized standard) and EMAS (Regulation 1221/09 - eco-management and audit community system). The collection helps to meet the criteria for obtaining LEED credits. The content of "pre-consumer" recycled material is 40%, as certified by a qualified external body (LEED V4 Regulations - MR Credit). The product contains no VOC (volatile organic compounds). The Environmental Product Declaration (EPD) is available, this tool communicates clearly the environmental performances of the X-Beton collection based on its Life Cycle Assessment (LCA).

**Antibacterial properties**

Thanks to Protect antibacterial technology, the tiles from the X-Beton collection have continuous, effective and durable protection against the proliferation of bacteria, tested and certified in accordance with ISO 22196 and ASTM E3031. (Except the Fiammata Surface).

#### Dimensions

- **Length and width**
  - ISO 10545-2: ± 0,3 %, max ± 1 mm COMPLIANT
- **Straightness of sides**
  - ISO 10545-2: ± 0,3 %, max ± 0,8 mm COMPLIANT
- **Rectangularity**
  - ISO 10545-2: ± 0,3 %, max ± 1,5 mm COMPLIANT
- **Warpage**
  - ISO 10545-2: ± 0,4 %, max ± 1,8 mm COMPLIANT
- **Thickness**
  - ISO 10545-2: ± 5 %, max ± 0,5 mm COMPLIANT

#### Slip resistance

- **DIN 51130**
  - R11 (NATURALE/FIAMMATA) R10 (SATINATA)
- **DIN 51097**
  - A+B+C
- **BCR-TORTUS**
  - μ > 0,40
- **ANSI A326.3**
  - DCOF≥0,42
- **AS-NZS 4586**
  - P4 (NATURALE/FIAMMATA)
- **BS 7976-2**
  - 36+ wet SI.96 (NATURALE)
- **UNE ENV 12633**
  - Clase 3 (NATURALE/FIAMMATA) Clase 2 (SATINATA)

#### Shade variation

- **ANSI A 137.1**
  - As indicated by manufacturer V3

#### Fire reaction

- **EN 13823**
  - CPR (UE) 305/2011, 2000/147/CE, UNI EN 13501-1 Class A1 (wall)
- **EN 9239-1**
  - Class A1 (floor)

#### Thermal conductivity

- **EN 12524**
  - Λ = 1,3 W/m °K

#### Recommended minimum joint (***)

- **Indoor**
  - 2mm

---

(*) Excluding hydrofluoric acid and its derivatives.

(**) The width of grout joints must be established by the installation supervisor, unless grout widths are regulated by national laying standards.
